

I CLAIM:

1. A sports bag for segregating items transported thereby comprising:
  - a) an ovular base of a flexible water resistant material;
  - b) a front shell and a rear shell, connected to opposite side edges of the base;  
wherein the front shell and rear shell are formed of a water resistant material and, in a first configuration, the base, front shell, and rear shell are co-planar and, in a second configuration, the front shell and rear shell extend upwardly from the base, and the edges of the front shell and the rear shell are joined via a waterproof closure device;
  - c) a front exterior mesh bag, a front exterior left mesh pocket, and a front exterior right mesh pocket disposed on the exterior surface of the front shell, each comprising a moisture permeable and air permeable material;
  - d) a front exterior left pocket and front exterior right pocket disposed on the exterior surface of the front shell, each comprising a moisture resistant material;
  - e) an interior mesh pocket disposed on the interior surface of the front shell, the interior mesh pocket comprising a moisture permeable and air permeable material;
  - f) a left interior mesh pocket and a right interior mesh pocket secured to the interior of the rear shell; and,
  - g) a carrying means.
2. A sports bag according to claim 1, additionally comprising waterproof closure devices for the front exterior left pocket and front exterior right pocket.
3. A sports bag according to claim 1, additionally comprising a stabilizer.
4. A sports bag according to claim 3, additionally comprising a means to secure the stabilizer to the front shell.
5. A sports bag according to claim 4, wherein the means to secure the stabilizer to the front shell comprises a top female strap connector, a top male strap connector, a left strap, and a right strap.
6. A sports bag according to claim 1, additionally comprising a collapsible bag.

7. A sports bag according to claim 6, the collapsible bag comprising a pouch of a flexible water resistant material and a mesh cylinder of a moisture permeable and air permeable material.
8. A sports bag according to claim 7, additionally comprising a means to secure the collapsible bag to the interior of the rear shell.
9. A sports bag according to claim 1, wherein the carrying means comprises a right shoulder strap, a left shoulder strap, a right waist strap, and a left waist strap.
10. A sports bag according to claim 1, wherein the moisture permeable and air permeable material is a nylon mesh.
11. A sports bag according to claim 10, wherein the nylon mesh is an elastic nylon mesh.
12. A sports bag according to claim 8, wherein the means to secure the collapsible bag to the interior of the rear shell is an adhesive material.
